Nazario A. Ayala — Senior Front End Developer

niztech.com • github.com/nazarioa • linkedin.com/in/nazarioa

I am a strong conceptual thinker that gets things done; with a keen interest in developing software that businesses need and want. I have over ten years of experience with web technologies in various technical roles, and now am pursuing an advancement in my career as a web developer. Looking to align my various skills on impactful projects with an organization focused on using technology to improve their business objectives.
